The Problem

Every day, people need three things:

Money **Help** **Proof**

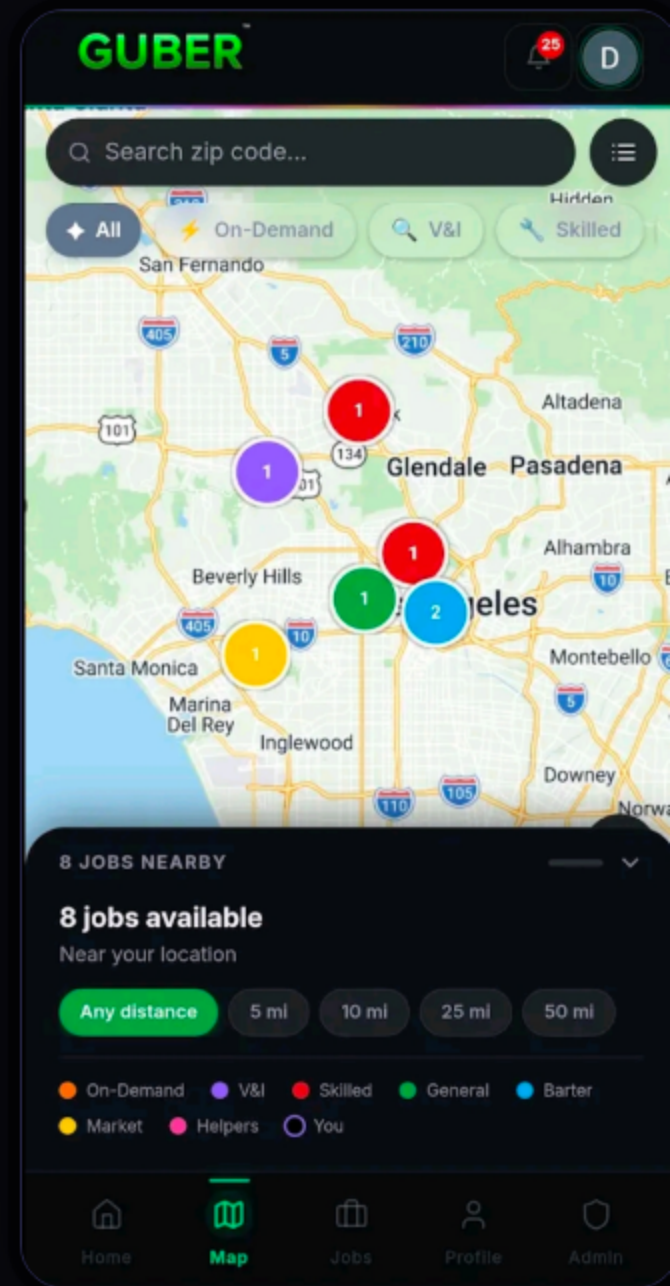

A person needing work struggles to find opportunity.

A business needing help struggles to find reliable assistance.

A buyer making a large purchase struggles to verify what they are buying.

The need exists.

The visibility does not.

Real Problems. Real People.

Transmission Failed

A transmission fails on Wednesday.

Payday is Friday.

The person needs money today.

GT500 Purchase

A buyer is about to spend tens of thousands of dollars on a vehicle located hundreds of miles away.

They need proof before they buy.

Airbnb Property

A property owner lives in another state.

They need eyes on a property they cannot physically visit.

Different situations. Same problem. People need opportunity, help, and verification.

Create Value In Yourself

GUBER gives people a chance. Not a guarantee. **A chance.**

- 01 Complete jobs.
- 02 Help others.
- 03 Verify information.
- 04 **Build credibility.**
- 05 **Earn trust.**

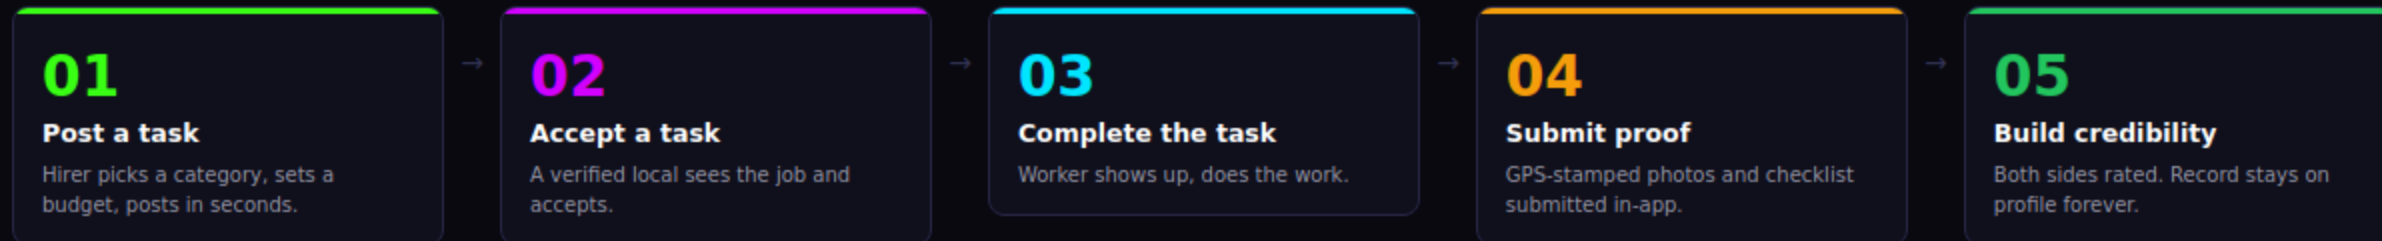

Your profile becomes a reflection of your actions.

**GUBER does not judge
people by assumptions.**

**GUBER documents what
they do.**

Every job completed becomes evidence.
Evidence becomes reputation.
Reputation becomes opportunity.

How GUBER Works

Simple. Repeatable. Scalable.

Traction

This is not a pitch for a future product. GUBER is live today.

Cash Drops

Real cash paid out in market

- ▶ Android live on Google Play since April 8, 2026
- ▶ iOS App Store submission in progress
- ▶ Day-1 OG tier generating Stripe revenue today
- ▶ Founder-built end-to-end — product, payments, native mobile
- ▶ All revenue streams live or flag-gated — none need future engineering

Trust Is Earned

Does GUBER let anyone do anything? **No.**

Anyone can start. **Trust is earned.**

- ✓ **Completed jobs**
Every job stays on record permanently.
- ✓ **Ratings from both sides**
Hirer and worker both rate every transaction.
- ✓ **GPS-verified proof submissions**
Location + timestamp locked at submission — not claimable after the fact.
- ✓ **ID + selfie verification**
Government ID required on both sides at onboarding.
- ✓ **Consistency over time**
Trust compounds — it can't be faked overnight.

GUBER documents trust. It does not assume trust.

Revenue Model

Platform Fees

LIVE

20% fee from helper share + 3.2% processing on every job transaction.

Verify & Inspect

LIVE

Helpers earn \$40-\$120+ per job. Platform takes 20% on every V&I transaction.

Business Features

LIVE

\$99/mo Scout Plan (20 unlocks). \$49 one-time business verification fee.

Premium Services

LIVE

\$4.99/mo Trust Box. Studio credit packs \$5-\$200. Subscription tiers \$10.99-\$99/mo.

Sponsorships

LIVE

~60% gross margin on every Cash Drop sponsor dollar. 27 drops deployed in market.

Future Expansion

FLAG-GATED

B2B API fees. Observation marketplace (20% cut). Instant cashout fees (2-5%).

Multiple revenue streams. One ecosystem. All live today.

Distribution Strategy

Growth comes from community activation — not paid advertising.

Local Launches

City-by-city rollout builds density before expanding. Every city is a proof of concept for the next.

Referral Loops

Every completed job creates a story worth sharing. Proof travels faster than any ad.

Business Partnerships

Local businesses unlock worker access through the Scout Plan — self-serve B2B pipeline.

Cash Drops

Geo-targeted sponsored rewards drive real-world installs and word-of-mouth at street level.

Verify & Inspect Demand

B2B pull from buyers, dealers, insurers, and lenders already searching for real-world verification.

Social Media

Organic engagement across Facebook, TikTok, Instagram, LinkedIn, and X. Zero paid promotion today.

Growth is driven by visibility, participation, and community activation.

Expansion Playbook

01

Start local.

Launch in a single city. Build density.

02

Prove repeatability.

Document what works before scaling.

03

Expand city by city.

Roll the playbook into new markets.

04

Expand region by region.

Stack density across connected markets.

05

Expand nationally.

The infrastructure is already built for it.

A disciplined, asset-light expansion strategy.

The same platform that powers one city powers all of them.

No rebuild required.

No new engineering team.
No new infrastructure stack.
Just execution.

The Network Effect

Every completed task creates:

Proof

Reputation

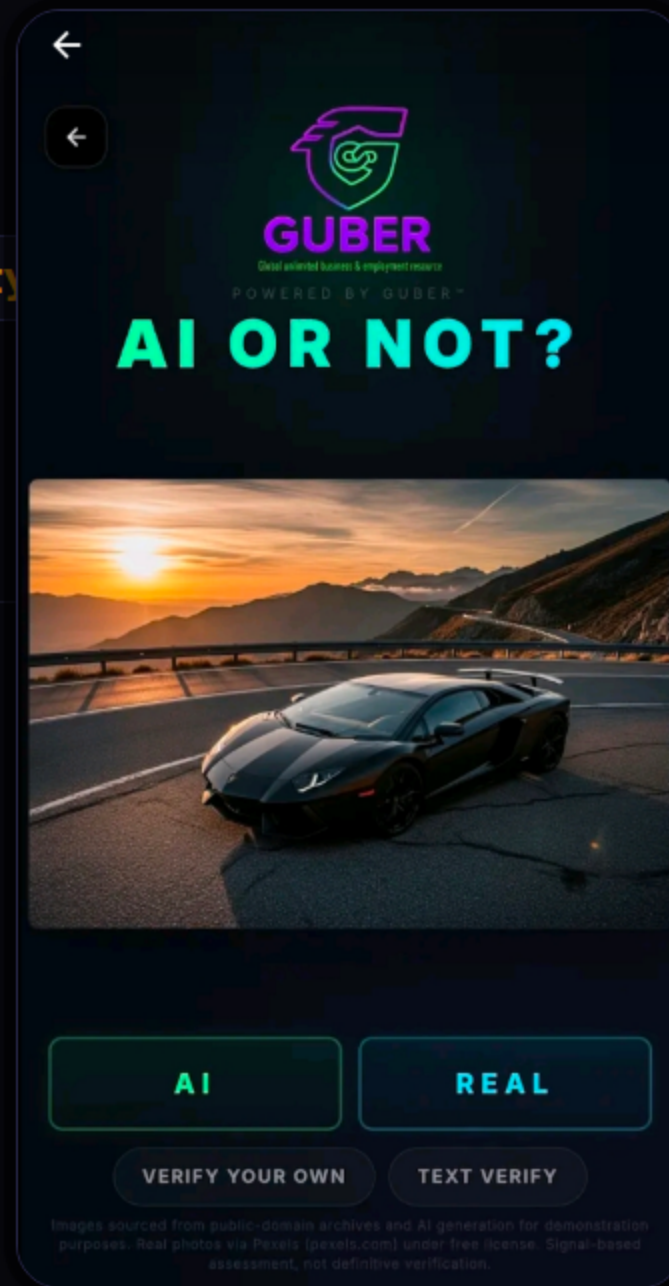

Credibility

Accountability

The more activity that occurs, the more valuable the platform becomes.

More workers build credibility. More hirers trust the platform. More businesses buy verification. More sponsors fund Cash Drops. More data strengthens trust scores.

**Trust is not purchased.
It is built through action.**

Why GUBER Can Win

- ✓ **Existing demand** — People already need work, help, and proof. No behavior change required.
- ✓ **Multiple live revenue streams** — Six streams live or flag-gated. None require future engineering.
- ✓ **Asset-light software model** — Infrastructure cost near zero at idle. Margin scales with volume.
- ✓ **Local-first expansion** — Density before breadth. Every city is a blueprint for the next.
- ✓ **Compounding moat** — Verification data becomes harder to replicate with every job completed.
- ✓ **Trust grows with usage** — The data layer becomes more valuable over time — not less.
- ✓ **Human behavior is unchanged** — People have always transacted locally. GUBER just makes it safer.

People already need work, help, and proof. GUBER simply makes it visible.

Vision

The long-term vision is simple:

Create a platform where opportunity, work, verification, and trust become visible in real time — in every community across the country.

● Every city.

Not just tech hubs. Real communities.

◆ Every person.

Not just professionals. Anyone willing to show up.

◆ Real proof.

Not just claims. Evidence that compounds over time.

Helping people create value in themselves.

Investment Opportunity

\$1,000,000

Target raise over 18 months

\$15M early-stage valuation framework

Capital goes to growth — not engineering. The product is already built.

USE OF FUNDS

Corporate stack already in place.

Delaware LLC GUBER Global LLC — investor-ready structure.

Trademark U.S. application filed from day one.

DUNS Number Issued. Required for App Store + B2B.

100% Founder-Owned No prior dilution. No SAFEs in the drawer.

Less talk. Straight action.

Every serious inbound gets a serious reply — same hour, same day.
