

PRIVATE INVESTOR BRIEF · 2026

GUBER

"Create Value In Yourself."

Global Unlimited Business & Employment Resources — one trust rail for local work:
verified identity, on-platform payments, and proof of every job. Live on web and
Google Play today; iOS submission in progress.

DIMETRIS BOWDEN · FOUNDER & CEO, GUBER GLOBAL LLC · GUBERAPP.GLOBAL@GMAIL.COM · (251) 284-9412
CONFIDENTIAL — FOR INVITED INVESTORS ONLY. DO NOT REDISTRIBUTE.

THE PROBLEM

Money. Help. Proof. The need is everywhere — the visibility isn't.

Transmission Failed

A transmission fails Wednesday. Payday is Friday. They need money today — and no easy way to find work fast.

GT500 Purchase

A buyer is about to spend tens of thousands on a car hundreds of miles away. They need proof before they pay.

Airbnb Property

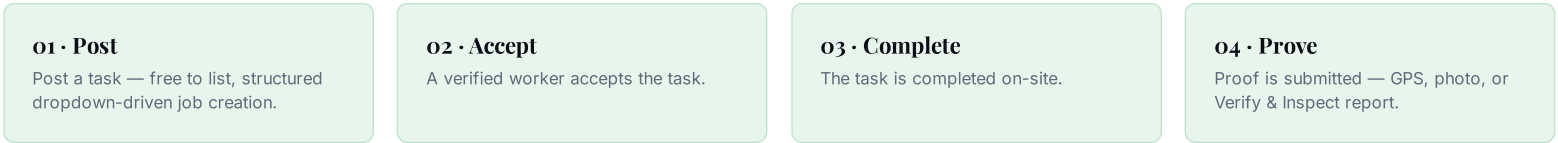

An owner lives out of state. They need eyes on a property they can't visit themselves.

Different situations. Same problem: a person needs work but can't find the opportunity; a business needs help but can't find anyone reliable; a buyer needs verification but can't be there.

THE SOLUTION

How GUBER Works

Simple. Repeatable. Scalable — a five-step loop that turns local demand into a documented, verified transaction.

05 · Build credibility — every completed job becomes part of a worker's permanent, verifiable record.

TRUST & PLATFORM POSITION

Trust is earned. GUBER documents it — GUBER doesn't assume it.

What builds credibility

- Completed jobs on record
- Two-sided ratings
- GPS-verified proof of work
- ID + selfie verification
- Consistency over time

What GUBER is (and isn't)

GUBER is not an employer, does not conduct inspections, and does not background-check on behalf of hirers or guarantee outcomes.

GUBER *is* a visibility and verification infrastructure layer — a record of what people actually do, not what they claim. The platform doesn't create liability. It creates accountability.

TRACTION

Live, deployed, and serving real users today.

27

SPONSORED CASH DROPS LIVE IN
MARKET — REAL WINNERS, REAL
CASH, PUBLIC PROOF

- Native Android live on Google Play since April 8, 2026 — iOS App Store submission in progress.
- Brand-funded Cash Drops already paying real users, winners photographed and posted publicly.
- Founder-built end-to-end — every revenue stream is live or one flag away.

BUSINESS MODEL

Revenue Model — six live streams, one trust rail.

STREAM	MECHANICS	STATUS
Platform Fees	20% fee on every job (18% for Day-1 OG) + 3.2% processing; \$1.99/mo Day-1 OG membership	LIVE
Verify & Inspect	Inspectors earn \$40–\$120+/job; platform takes 20%; digital Buyer's Order documents	LIVE
GUBER Studio	AI media generation; credit packs \$5–\$200; tiers \$10.99–\$99/mo	LIVE
Business Features	\$99/mo Scout Plan (20 talent unlocks); \$49 one-time verification; barter & direct offer rails	LIVE
Premium & Sponsorships	\$4.99/mo Trust Box; ~60% margin on Cash Drop sponsor dollars	LIVE
Load Board & Transport	20% fee on every completed load; verified carrier network; proof of delivery + escrow	LIVE
Marketplace & Expansion	Vehicle/asset listings; observation marketplace (20% cut); B2B verification API; instant-cashout fees	FLAG-GATED

Every vertical runs on the same trust rail. One platform. Compounding revenue.

MARKET OPPORTUNITY · TAM · SAM · SOM

Positioned at the intersection of multiple massive industries.

\$2T+

TAM — GLOBAL GIG ECONOMY, LABOR, TRANSPORT, REAL ESTATE & LOCAL COMMERCE

\$250B+

SAM — U.S. LOCAL WORKERS, VERIFIED SERVICES, TRANSPORTATION & INSPECTIONS

\$250M+

SOM — 0.1% MARKET SHARE; CITY-BY-CITY ACTIVATION PLAYBOOK

Why now: the workforce is more flexible, consumers demand on-demand service, businesses need trusted local resources, and verification is becoming critical in every online transaction.

TRANSPORT STRATEGY • \$11T+ GLOBAL INDUSTRY

The Load Board — entering freight, solving its oldest problem: trust.

\$900B+

U.S. TRUCKING & FREIGHT

\$11T+

GLOBAL LOGISTICS

\$200B+

LAST-MILE DELIVERY

\$80B+

BROKER & LOAD MATCHING

- Verified carriers — every carrier has an identity on file, no ghost accounts.
- Escrow & payout on the same rail that powers every GUBER job — already built.
- GPS tracking + photo confirmation at pickup and drop; disputes are documented, not guessed at.
- 20% platform fee on every completed load — zero new infrastructure required.

CATEGORY CREATION

Trust infrastructure for local commerce — not another gig app.

The pillars

Labor · Marketplace Transactions · Transportation · Inspections · Verification · Reputation · Payments · Trust — one unified platform where fragmented ecosystems used to sit in separate apps.

The network effect

Every completed task creates proof, reputation, credibility, and accountability. The more activity, the more valuable the platform — trust isn't purchased, it's built through action.

Vision: to become the operating system for local commerce — finding work, hiring help, verifying assets, completing transactions, and building reputation, all on one trusted network.

GO-TO-MARKET

Distribution Strategy — growth from community, not paid ads.

Local Launches

City-by-city — build density before breadth.

Cash Drops

Sponsored geo-rewards drive installs and word-of-mouth.

Referral Loops

Every completed job is a story worth sharing.

Verify & Inspect Demand

B2B pull from buyers, dealers, insurers, lenders.

Business Partnerships

Local businesses unlock talent via the Scout Plan.

Social Media

Organic reach across GUBER's channels — zero paid spend.

EXPANSION PLAYBOOK

A disciplined, asset-light expansion strategy.

1 · Start Local

Launch one city. Build density.

2 · Prove Repeatability

Document what works.

3 · Expand City-by-City

Roll the playbook forward.

4 · Expand Region-by-Region

Stack connected markets.

5 · Expand Nationally

The infrastructure is already built.

INVESTMENT THESIS

Why GUBER Can Win

- Demand already exists — people need work, help, and proof today.
- Multiple revenue streams, all live now — not a roadmap promise.
- Asset-light and founder-built — capital goes to growth, not catch-up.
- One trust rail powers every service, so advantages compound with usage.
- No behavior change required — people already transact locally.

People already need work, help, and proof. GUBER simply makes it visible.

BUILT RIGHT

The corporate stack is already in place.

No co-founders to negotiate with. No prior raise to clean up. The legal scaffolding is done so capital can move on day one.

Delaware LLC

GUBER Global LLC — the structure investors know how to underwrite.

Trademark Filed

U.S. trademark application filed, protecting the brand from day one.

DUNS Issued

Required for Apple, Google Play, and B2B procurement.

100% Founder-Owned

No prior dilution. No SAFEs. Whatever you write is the cap table.

INVESTMENT OPPORTUNITY

Raising \$1,000,000 over 18 months

\$15M early-stage valuation framework. Capital goes straight to growth, not engineering — the product is already built and live.

USE OF FUNDS	ALLOCATION	AMOUNT
User Acquisition & Market Activation	35%	\$350K
Product Development & Engineering	30%	\$300K
Trust, Safety & Compliance	15%	\$150K
Partnerships & Business Development	10%	\$100K
Infrastructure & Platform Operations	5%	\$50K
Reserve Capital & Contingency	5%	\$50K

This is an early-stage framework, not a guaranteed company worth. Terms reward investors who move fast.

LESS TALK. STRAIGHT ACTION.

Let's Build This.

This brief is private. Email, call, or text — every serious inbound gets a serious reply, same day.
