Sponsored push notification blast (per 10,000 users)	\$150

- **Real proof, not impressions.** Cash Drop winners photograph themselves claiming their reward and post it publicly — organic content your brand doesn't have to produce.
- **Local targeting.** Sponsor specific cities or regions as GUBER expands market by market.
- **Ground-floor pricing.** These are introductory rates for early sponsors — pricing rises as the user base scales.
- **Flexible commitment.** Month-to-month, no long-term contract required to start.

All pricing above is an introductory proposal, not a fixed rate card — packages, minimums, and discounts are negotiable based on market, timing, and campaign scope. Final terms are confirmed in a written sponsorship agreement.
