

PRIVATE INVESTOR BRIEF · 2026

GUBER

"You Name It. GUBER Gets It Done."

Action marketplace for real-world work, services, local tasks, inspections, transport, and opportunity.

Guber Global LLC · 100% Founder Owned · Live on Web + Google Play · Confidential

The problem is everywhere.

People need things done now, but the path from need to action is broken across every existing platform.

Help is fragmented

Job boards, classifieds, social — nothing connects need to action fast.

Workers can't find fast income

People with skills have no trusted centralized place for real local paid work.

No trusted middle ground

Local cash transactions have zero verification and zero recourse.

"The need is everywhere. The visibility isn't."

GUBER turns needs into action.

JAC — Job Assistance Coordinator

GUBER's AI assistant helps users instantly figure out what to post, where to go, and what action to take. Guided from first tap to first dollar.

One platform. Post a task, hire help, find work, request inspections, sell items, move vehicles, complete local missions.

PLATFORM MODULES

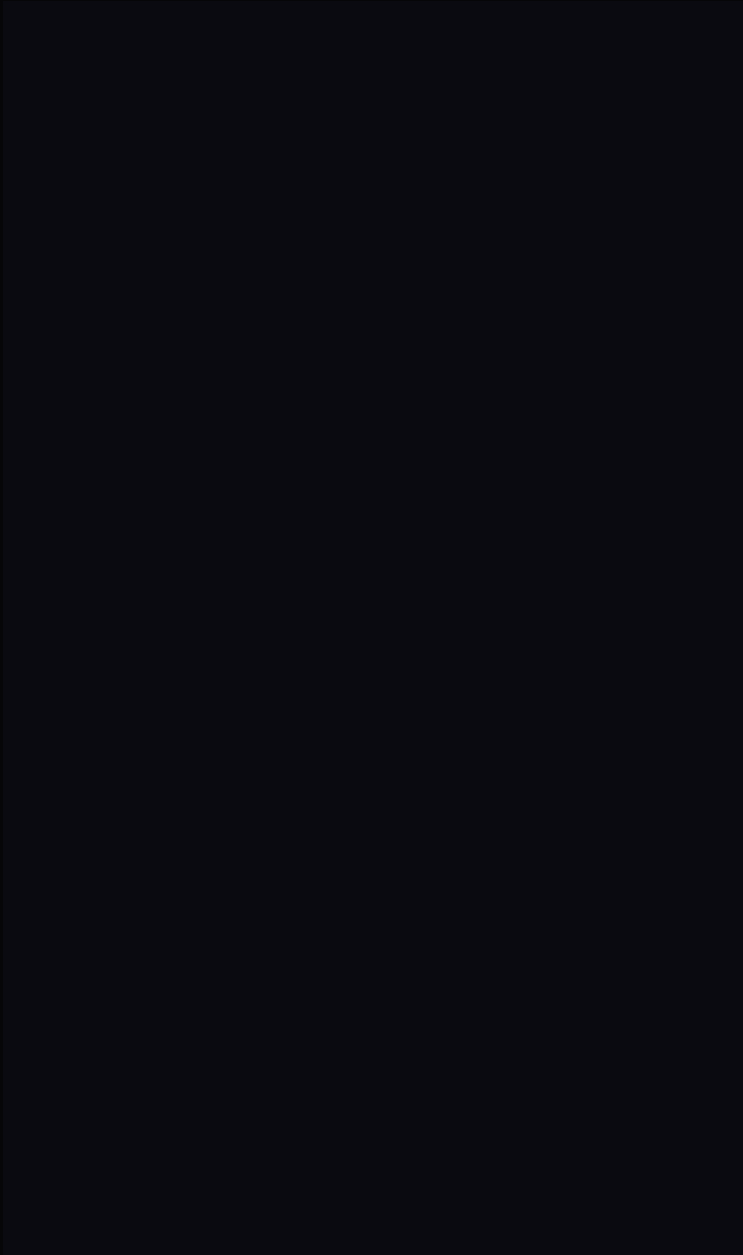

- | | |
|--------------|---------------------------|
| ● Hire Help | ● Find Work |
| ● See For Me | ● Marketplace |
| ● Load Board | ● Wanted Board |
| ● Missions | ● Local Discovery via JAC |

One platform. Many actions.

Marketplace

Marketplace + Studio

The conditions are perfect.

Ø=Üñ Mobile-first everything

People expect to transact entirely from their phone.

Ø=Ý Trust is the missing layer

Consumers demand verified identity before local transactions.

&ı Flexible work is the default

The workforce has permanently shifted to flexible income.

Ø=ÜÍ Local commerce is exploding

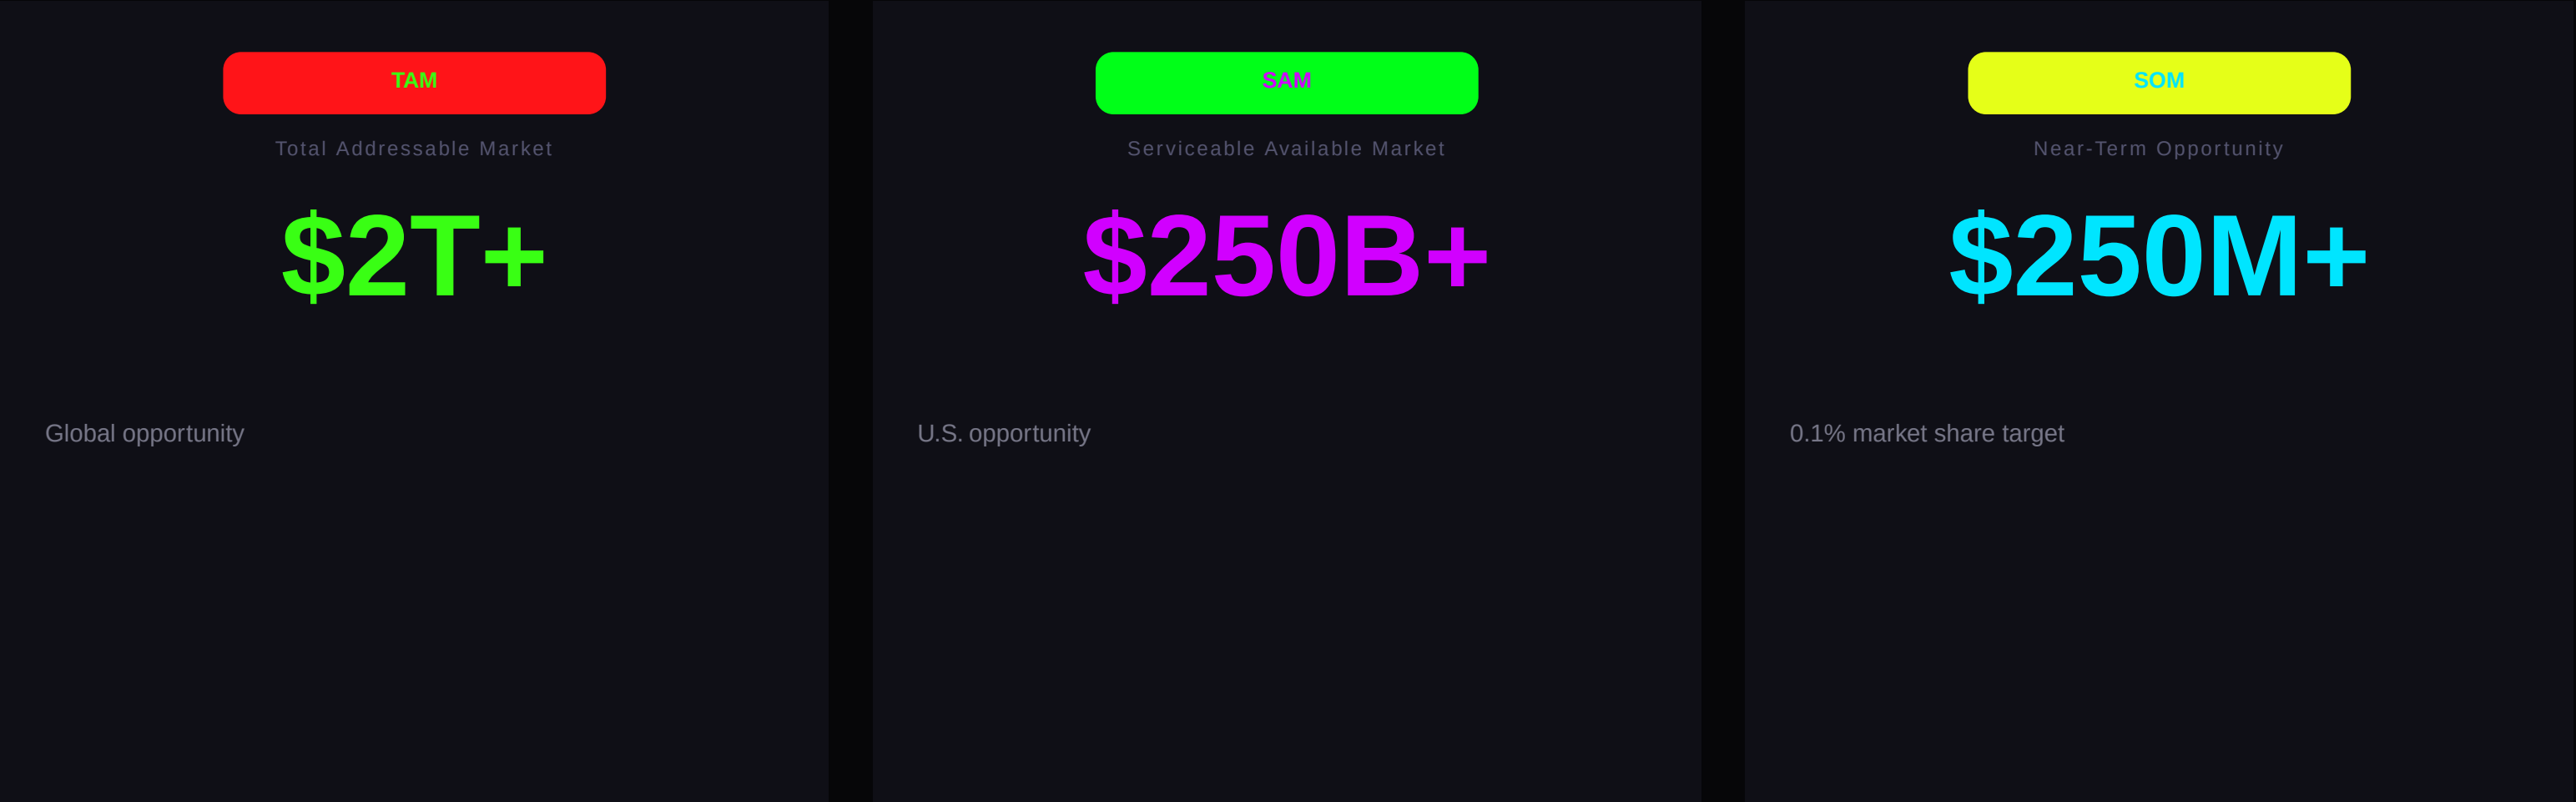

On-demand local services have grown exponentially since 2020.

Ø>Ý AI-assisted search is expected

Users expect instant guided answers. JAC delivers from first tap.

A trillion-dollar intersection.

GUBER targets a combined trillion-dollar-plus opportunity across labor, services, commerce, and logistics.

Multiple live revenue streams.

PAYMENTS / JOBS

- Native Android live on Google Play since April 8, 2026 — zero paid acquisition
 - Web app live and serving real users at guberapp.com
 - iOS App Store review process underway
- Stripe Connect, escrow, and payouts wired end-to-end
 - Cash Drops already paying real winners — posted publicly
 - Founder-built — every revenue stream is live or one flag away

Early Traction Note: User count is currently validating. All other metrics reflect live platform behavior — not projections.

City-by-city. Supply before demand.

Growth comes from community activation — not paid advertising. Start local. Prove repeatability. Expand.

Activate city supply first

Workers, transporters, inspectors, and service providers via missions and local jobs.

JAC-guided onboarding

Every new user guided from signup to first action. No confusion, no learning curve.

Cash Drops drive installs

Geo-sponsored cash rewards create organic word-of-mouth and real installs.

Business partnerships

Local businesses unlock talent and verification via Scout Plan and V&I.

Referral loops compound

Every completed job is shareable proof of income. Workers recruit workers.

City by city, then national

Build density before breadth. Document what works. Roll the playbook forward.

Seeking strategic funding and partnership.

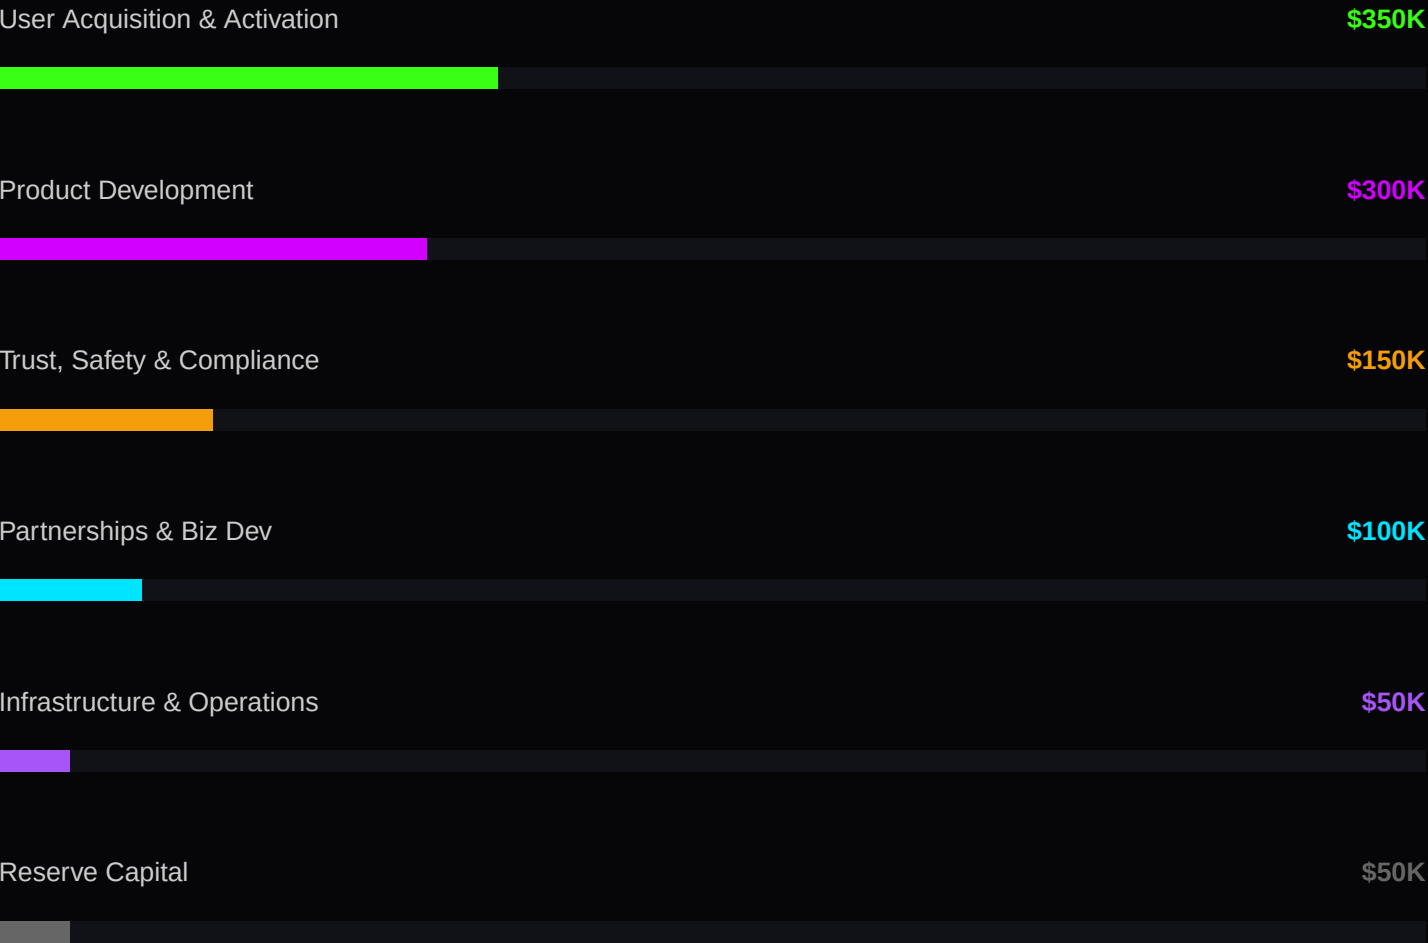

\$1,000,000

Raise target over 18 months

\$15M early-stage valuation framework. Capital goes to growth — not engineering.
